Environmental Impact Assessment Review — Volume 2

The *Environmental Impact Assessment Review* is a publication for planners, engineers, scientists, and administrators involved in the practice of impact assessment. The *Review* seeks to bridge the gap between theory and practice in the field of impact assessment. Brief summaries of new analytic techniques and breakthroughs in environmental decision making are highlighted in each issue. Feature articles by practitioners, scholars, and policy makers that address some of the most urgent problems in the field are also published.
